WORK EXPERIENCE

Software Engineer

Feb 2024 - Present

Collaborations Pharmaceuticals, Inc. - Raleigh, NC (Full-Time)

- Built and delivered an LLM-driven document generation platform that transforms unstructured text, image, and tabular data from PDFs and DOCX files into professional regulatory reports and scientific figure captions in minutes using Python, LangChain, FAISS, and AWS Bedrock
- Directed complete UX/UI redesign and frontend redevelopment of company's ML model training and prediction software tool suite with React and Typescript, collaborating with cross-functional internal teams and external clients to improve usability, implement new features, and integrate data visualization tools
- Drove lead generation initiatives by combining website redesign, live software demos during client pitch meetings, and purpose-built demo sites with email capture to increase top-of-funnel client interest

Full Stack Software Developer

June 2023 - Present

myPAbox - Remote (Contract)

- Led full stack development of myPAbox v2, translating Figma-based UI mockups into production-ready, responsive React components while building and maintaining a Firebase backend for secure user-authentication and data storage
- Integrated and configured OpenAI API to auto-generate personalized PA school personal statements and essays from structured user-provided applicant data
- Designed and developed an internal admin dashboard application to streamline data entry and validation workflows, independently managing architecture decisions, implementation and delivery

Freelance Developer

June 2023 - Present

Self-Employed - Remote (Contract)

- Designed and developed custom public-facing websites for clients across multiple industries, leveraging various CMS platforms to deliver tailored digital experiences aligned with each client's brand and business goals
- Independently managed full project lifecycle end-to-end and maintained direct client relationships throughout the development process, incorporating iterative feedback to ensure final deliverables met business objectives and launched on schedule

EDUCATION

The University of North Carolina at Chapel Hill

2017-2021

Bachelor of Science - Chemistry
